

## Our containers. For all requirements and all types of metal

One cubic metre isn't big enough? No problem: Our standard range includes containers as big as 36m<sup>3</sup>. We can offer you the right container to suit your exact needs.

We can provide you with a whole range of different types and sizes of container – all made to meet DIN standards. If you wish, we can also produce special containers to meet your specific needs.

## THE METAL BOX

## The easy way to manage metal scrap. Our small container system

### > THE METAL BOX

Does your business generate scrap metal on a regular basis? Do you need help managing it? We offer a full-service solution – from on-site storage, collection and transport to recycling the materials!

[the-metal-box.eu](http://the-metal-box.eu)

> A FULL RANGE OF SERVICES FROM JUST ONE COMPANY

## THE METAL BOX: A smart solution

Does your company regularly generate scrap metal that needs to be professionally managed and recycled? Then let us do this for you: we supply you with THE METAL BOX, you use it to store your scrap metal and we recycle the materials for you.

### How you benefit

- A credit note is issued quickly and transparently
- Payments are based on the latest metal prices (updated daily)
- The metals are weighed on site at your business
- All conditions set by the authorities and the Commercial Waste Ordinance are met
- The metals are processed and recycled

### THE METAL BOX

- Dimensions: 1.20 x 1.00 x 0.76m (LxWxH)
- Available with lids and with locks
- Volume: up to 600 litres

The following costs are included in the contract: a monthly fee for renting THE METAL BOX and a flat-rate sum for each box transported.

> THE METAL BOX – THE CONCEPT

## How it works:
